" Omar Al-Sheshani;The New Khalid Ebn Al-walid "

((Article about his powerful military achievements' in Syria as one of the best strategic and tactical leaders in #ISIS))

Tarkhan Bater scvili known as Omar Al Sheshani born in 1986 from Banix valley in Georgia , from a Christian father and a Muslim mother , according to reports in media and Web sites , known as Abu Omar Al sheshani the secretary of war to the Islamic state #ISIS.

He moved to Syria in 2013 and led a group called The Army of Ansar and Al-Muhajreen which consists mostly of immigrant fighters, he then

sworn allegiance to "Baghdadi" who appointed secretary of war to #ISIS , Omar is known for being the most fiercest and cunning fighter in #ISIS he also never lost any of his battles. When he took control of the Mount Barakat in DAR AZA ,Omar said " it was taken fully thanks to god we did not have but only one injury". His next operation was in Aleppo "Saif Aldawla" where the fight has continued for nearly 42 days in several sites. He says " I had to take a look from a military standpoint, proposed a plan to the other battalions because there were in the city and it was easy to the regime to besiege them". His plan was to hit the Scientific Research facility and circumvent regime's forces. The plan went well until as he said "the group that was in charge of ambushing regime forces that were coming as a backup to the Scientific Research Facility had disobeyed his commands and never repelled those forces, so we lost the Scientific Research , but the end results of this operation was good , because the regime was forced to send its backup to Scientific Research from the fronts in Aleppo city which weakened its attack on the city . Al sheshani next destination was Al TAANA battalion which was blocking the rebels and civilians routs. Then there was Alshekh Suleiman, where the regime forces shot any car passes between Dar Azaa and Aleppo , it was controlled jointly with Jabhat Alnusra and the council of the Mujahideen. Vast number of dead women and children were found after they entered Alsheikh Suleiman.

Then, there was operation of Al Sfiera , but a conflict risen between Al Nusra and #ISIS who withdrew from the town which enabled the regime to take it back again. Then there was preparation to control Al Nayrab military airbase, and the 80 Brigade where he managed to take over its supplies of weapons and repairs shop in Beaufort also camp Handarat . Next Destination was Meng air base which was already under siege by the rebels. They requested back up and support from" Omar sheshani " who delivered and the airbase was taken.

Hama City

Omar says : "it was so much booty and gifts, we stormed 11 military positions and took the spoils in 8 locations , some of them were in Hama countryside.

Alhasakah City

He controlled the 121 regiment.

ISIS grew stronger and stronger and more groups and battalions sworn allegiance to it. ISIS launched the

AL-KHEIR battle aimed to control several strategic locations belong to the regime and to control oil fields in the countryside of Deir AL-zor. The most important sites were (Thunderbolt battalion, 137 Brigade, the warehouses and towers of Aljehev and Ayyash control-point). At the beginning of the battle ISIS suffered huge losses, mostly of non-Syrian nationalities. Again; there was Omar AL Sheshane to help and to provide support with huge numbers of fighters and made a significant progress especially on the Ayyash front. During the Al-kheir battle, Ahrar Al-Sham and Al-Nusra attacked the Islamic state in Raqqa, which forced ISIS to use Omar Al Sheshane who left Deir Al-zor with ISIS fighters and went to Raqqa. ISIS was entrenched in the governorate building and some houses, but when Omar Alsheshane arrived, he flipped everything ... they started a counter attack and moved to control over parts of the city ,, days later Islamic State declared control of the whole city of Raqqa . (AL SHESHANE had a prominent role in those battles),

After this victory the ISIS managed to control the 17th Division and the 93 Brigade in Raqqa, then started the battle of Tabaqa Military Airbase.

OMAR Al-Sheshane was able to control the base in a time record and became the number one to ISIS media which gave him his new title "The New Khaled Ebn Al-Walid" for his wisdom and consistent victories but the name remained unpopular in social pages. Now Alsheshane is leading the battle "Eye of Islam" -as he calls it- to control of the city of (Kobani) or Ayen Alarab . Some newspapers reported that he was killed (Alsheshane) but this is not true.
